**Subject:** EPA Site ID 08-5M - Upper Animas Mining District - Sunnyside Gold Corporation 104(e) Response

Hello all,

On July 25, 2013, at approximately 10-11 AM, Toeroek Associates, Inc. (Toeroek), acting on behalf of the United States Environmental Protection Agency, Region 8 (EPA), collected 65 boxes of documents from the law offices of Tempkin Wielga & Hardt LLP (TWH). These documents were provided with Sunnyside Gold Corporation's (SGC) May 14, 2013 Response to EPA's 104(e) Request for Information for the Upper Animas Mining District site in San Juan County, Colorado.

- 61 of the boxes were part of a sequence of numbered boxes labeled "Sunnyside X" with X being a box number from 1 to 84. Toeroek is in possession of all boxes from 1 to 84, with the exception of the following 23 boxes: 14, 17, 22, 26, 38-39, 54, 57-58, 62-63, 66, 69-73, 75-77, 81-83. These boxes were not included in the document production.

- 4 of the 65 boxes were unnumbered and contain oversize maps. The maps are protected within storage tubes labeled "Sunnyside MX" with X being a number from 1 to 41. All 41 tubes were included within the document production.

Toeroek has contracted with Echo Concepts, Inc. of Denver, CO to scan the documents and create OCR'd PDF files of the documents, bates stamped with a SGC-000000 number. Each page will be numbered, and PDFs created on a document level. The file structure for the PDFs will be Sunnyside Box Number > Folder Number > PDF document.

The oversized maps will be scanned as needed after an initial review by Toeroek.

Scanning will be completed and all 65 boxes returned to TWH by August 15 (three weeks from July 25 pick-up at TWH).

Please do not hesitate to contact me by phone or email with any questions or concerns.

Sincerely,

**Charles Sweet**
